April 13-17, 2026

**Music Monday-** Monday is all about music! Whether you're singing, dancing, or playing musical instruments, it's time to make some noise and have fun. Musical activities are a fantastic way for kids to grow their language and through music children develop math, language and literacy skills all while having fun and being active.

**Tasty Tuesday-** Cooking together connects math with literacy and more, it is about enjoying fun food activities! Did you know that activities like cooking build your child's language, reading, and cognitive skills.

**Work Together Wednesday-** When children build together they explore math and science concepts and develop their social and early literacy skills.

**Artsy Thursday-** Children develop creativity, social skills and fine motor skills with open ended art projects where they can make choices, use their imaginations, and create with their hands.

**Family Friday-** Please join us at 3pm for a special snack with your child.

\*please check your child's weekly news for more details about each day\*
